# JUPITER ED

Students log into Jupiter Ed to view assignments and messages from their teachers.

# TO-DO LIST

Assignments are arranged by class into an easy to navigate to-do list.

Assignments are posted before Wednesday and Friday mornings.

# ASSIGNMENTS

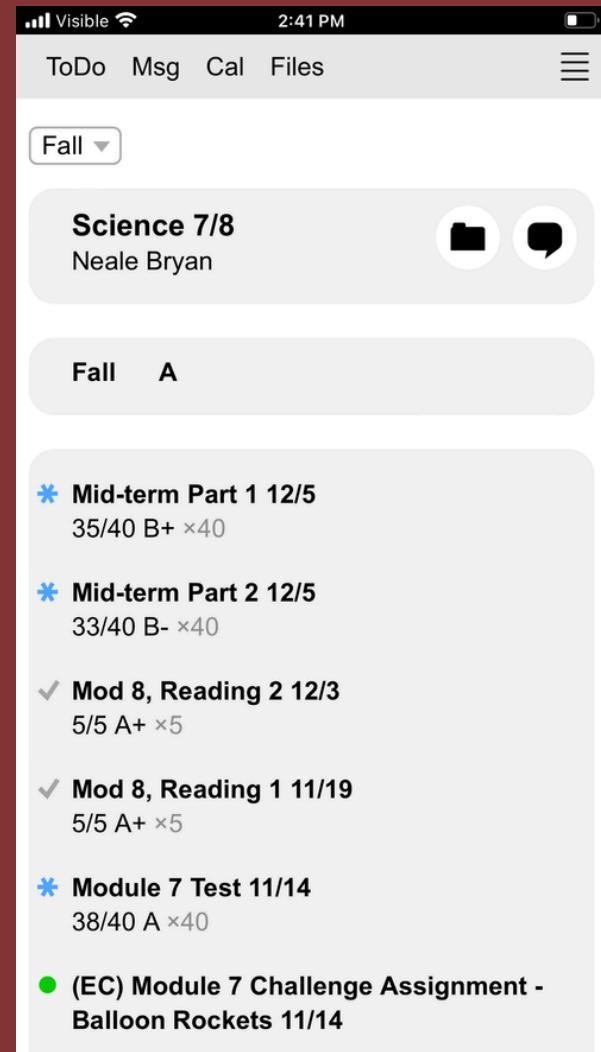

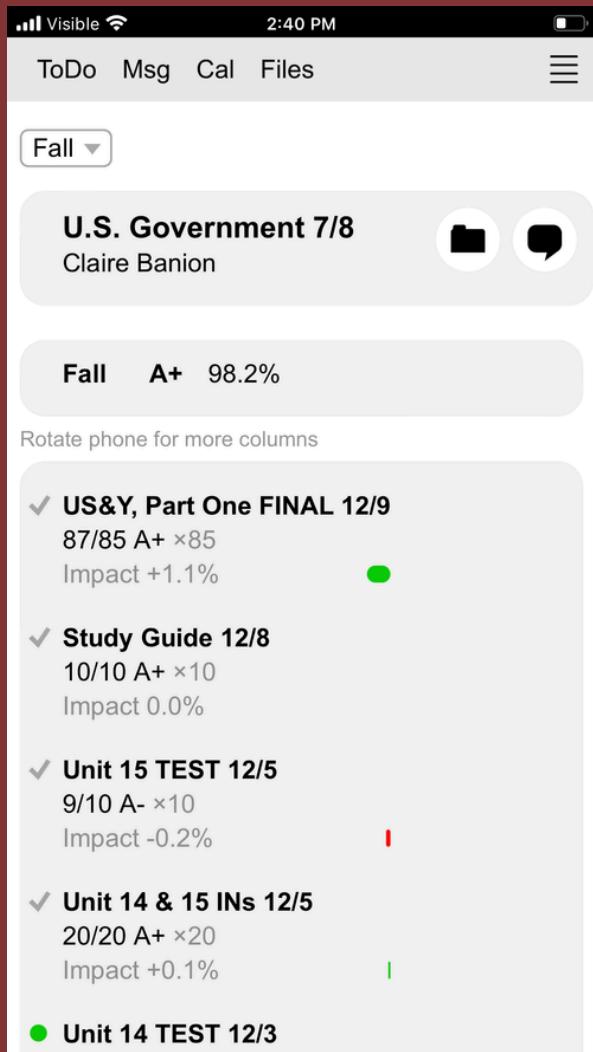

The image displays three screenshots of a mobile application interface, likely a digital assignment tracker. Each screenshot shows a different assignment card with various details and a 'Done' status indicator.

- Screenshot 1 (Left):** Shows an assignment titled "13: Rough Draft, Edit & Final" by IEW 7/8, Claire Banion, due Fri 1/9. The status is marked as "Done" with a checked checkbox. Below the assignment, there is a "Directions" section with instructions: "Finish your rough draft. **Read it aloud.** Hand to a parent and kindly ask them to edit it. Make corrections. **Read it aloud.** Use checklist. Then print. **Read it aloud again.**"
- Screenshot 2 (Middle):** Shows an assignment titled "Write a Psalm- see directions below" by Bible 7/8, Katrina Alconz, due Wed 1/21. The status is marked as "Done" with an unchecked checkbox. Below the assignment, there is a "Directions" section with instructions: "Do like David did- write a Psalms about you current situation- it can be personal, personal but not vulnerable, more general about the times we live in, or our city, OR maybe Ignite...." and "It should be at least 7 lines. You can go longer... be creative if you want. It doesn't have to rhyme but it can. You could do acrostic style like some Psalms ya know where each line starts with a certain letter."
- Screenshot 3 (Right):** Shows an assignment titled "Module 15 Brainstorming Assignment" by Science 7/8, Neale Bryan, due Fri 1/23. The status is marked as "Done" with a checked checkbox. Below the assignment, there is a "Directions" section with instructions: "Follow the Brainstorming Ideas instructions from your Student Note Book for Module 15. Look back through your science books (or look forward to upcoming modules) for at least 3 topics that interest you and which you can brainstorm some questions regarding each topic. Bring your topics and brainstorm questions to class on Tuesday for class discussion."

Students click on the assignments to read instructions from their teachers and mark “done” when they are complete.

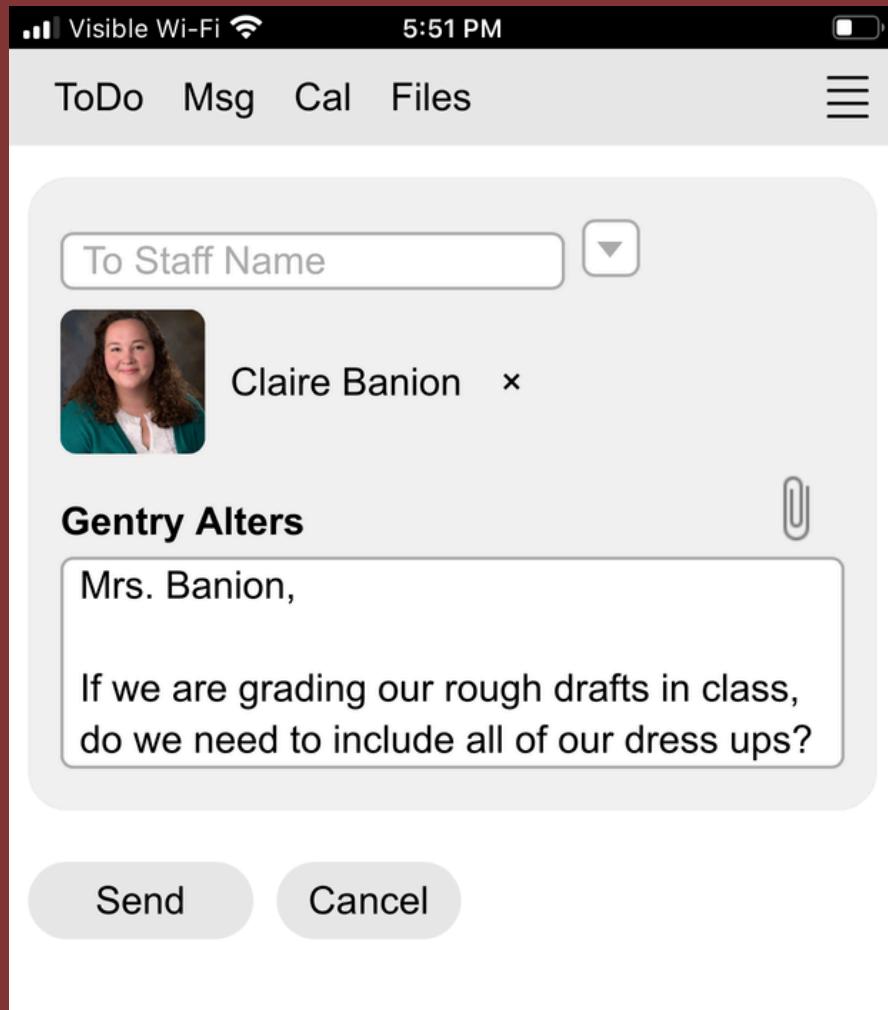

Most assignments are completed using textbooks, paper, and pencil.

# CHECKING GRADES

Grades for individual assignments can be viewed for each class.

# MESSAGING

Students can safely communicate with their teachers through the messaging portal. Parents can log in to view any messages.
